**What We've Become**

They're killing the kids. The inhumane conditions they are subjecting these desperate immigrants to, is horrendous and downright evil. No way to wash their hands after they use the bathroom, no showers, uncooked frozen food, crowded into pens that frankly, if we saw dogs, cats or chickens treated this way, there would be a nation uproar.

The kids are getting sick, and so are the adults. But they are not being provided medical care or even decent quarantine. Being thrown into a dark cell, made to sleep on the cold concrete floor with no blanket as 'punishment' for getting sick, is as good as it gets.

Our Federal Government, without a single Republican standing up against any of this, is not just letting the children die, they are creating the "Hot Zone" environment that allows the sickness to spread and spread quickly. They refuse to immunize the immigrants, despite the vaccines costing mere pennies, and despite the fact that these private prisons are receiving from our tax dollars, over \$720-800+ per day, per person to stuff them in these hell holes.

Here's what happens when you don't immunize and you don't give proper nutrition, and you don't allow hygiene of any sort: You get diseases that spread and mutate. We will have the worst flu outbreak, the worst mumps outbreaks, and now, apparently, polio is starting to take hold, while not a single republican votes against or takes a stand against this barbaric cruelty.

The people who work around these sick people will also get sick. The flu shots they have will be worthless once these viruses mutate, over and over again. It takes 8-18 months to create a flu vaccine that will handle the latest strain that goes around... and that's in the best of circumstances where you are not literally creating these 'hot zones'.

The agents will then either get sick, or carry these diseases home to their families, their communities. All because the White House is constantly thinking of greater and greater cruelties to inflict upon the most desperate, vulnerable people at our borders, and while they're at it, make billions in profits for themselves by investing in, getting paid by, these very same private prison companies.

Kevin Cramer, Senator Kevin Cramer, whom I thought cared about children is as corrupt and cruel as the rest of them. North Dakota, you need to speak to him. Loudly and often.

Young girls and women are not given any feminine hygiene products and are forced to bleed through their clothes. \$720-\$800 per day not enough profit, Cramer? This is done to force not just infection and worse on these women, but to humiliate them. Humiliation was key to

Adolph Hitler's Death Camps and Concentration Camps. Don't tell me we are not following the Nazi Templates here.

By the way, the new logo at the end of the Trump Pence campaign video is a lion... the exact same lion logo that represented a White Power Organization that has been tied to violence, shootings and killings. Not ONE Republican has said a word. About now, all they say is that they were unaware, didn't see, didn't here, didn't know... and will have to get back to you on this when they have time. Yes, their out is to tell you they are blind, deaf and very stupid, and way too busy (not passing any legislation) to be bothered by any questions about their Nazi Party Policies & Practices.

Now, we also know that the children they are kidnapping at the Border are being sold. Trafficked. You see, they all go through Betsy DeVos's Tax Exempt Adoption Agency, which pays her millions. That's why they don't fill out paperwork and try to reunify these kids with their parents. They take the ones they think they can get top dollar for, and market them out. Through an agency that has no oversight. None.

You want to know who else is looking the other way as these abuses are being done to Children and Families? The ACF. Administration for Children & Families is supposed to protect and oversee the care and treatment of every child in the system.

They have been failing for decades, and it is on purpose. The trafficking of Humans is more profitable than the trafficking of drugs. The trafficking of Children is the most lucrative of all the crimes we know of.

When these abuses were happening in Indian Country, to children who were Indian Children, only ONE MAN in that agency ever spoke up and took a stand against it: Tom Sullivan. He was harassed, threatened and finally fired for speaking out. The agency could have functioned so much better, made children so much safer, but those who ran it had other priorities, all political, all very profitable. They got rid of Tom Sullivan.

The irony (hypocrisy?) of it all was that they tried to paint him as "racist against Indians", and said all his claims were false. The woman they installed as Deputy in that agency, a woman named Duran, testified that everything he said, every mandated report he filed against the abuses of children in Indian Country, were lies. All Lies. Her answers were all lies.

She claimed at the end of her testimony that because she was part Indian (we have no idea if that is a true statement) she was better qualified than anyone to know if abuses were happening in Indian Country and she never filed a single Mandated Report, despite child rape,

and even child murders and suicides being reported weekly to her agency. Not a single Mandated Report.

Now we can see that that Agency has no intention of protecting these children whom they are by law, duty bound to protect. They've allowed this to go on and on and on, and not a peep from any of them. That tells me they fired the only one in that entire agency that cared about what happened to children.

And here we are. Children being tortured, dying from diseases while in custody, that they acquired while in custody. Prior to this administration and their planned cruelty, no child had died in custody at the Border for over 10 years. Now, a Hot Zone is fermenting. Diseases that can travel on the wind and even slight breezes, will be coming to a town near you. People will be traveling to, from and through those areas, and it will spread like wildfire.

Republicans don't care. They don't care now that their President & Vice President stamp their campaign videos with a logo taken from White Supremacy Organizations. This is who you are now. This is what our country is seen as now.

This could have been prevented decades ago, but it was not important because the only victims were Indian Children, abused, raped, stolen, sold, disappeared. Now, it's the children of Immigrants. Immigrants are being treated like prisoners.

Immigrants who are naturalized citizens are being threatened that their citizenship will be stripped from them if they use any public services at anytime. Immigrants who came here for medical treatment are being told to get out. You have 33 days to remove yourself or you will be removed. They are literally saying that to people whose children will die within days if not weeks if they are removed from treatment. Hurting Children is the fun part for the Nazi Party.

Children too sick to show up in Immigration Court will be thrown out of the country. How very Christian of you all.

You think they will stop at hurting Immigrant Children? You thought they would stop at hurting Indian Children, and you were wrong about that.

They've thrown Veterans out of the country. Veterans who served multiple tours in the Mid-East endless Wars that a previous Republican President started because "The War Would Pay for Itself," "Be over in 6 months of less," "MISSION ACCOMPLISHED", etc., those men & women are fighting for our flag, and instead of returning home and getting the citizenship they were promised, they're thrown out of the country. Spouses of our active duty soldiers, are deported while their spouse is literally, fighting in that desert.

And now, the president who thinks he's a king and can change laws by decree, is decreeing that these immigrants, these asylum seekers, will be held indefinitely (at \$720-800+ dollars per day per person) and that they will forbid any oversight into their whereabouts, their condition, their treatment.

Bear in mind that they have falsely arrested American Citizens and held them for days, weeks and months, refusing to believe their documentation and proof. Now, factor in how they can do that to anyone they want, make you disappear, and make it illegal for anyone to find you. Still feel safe?

That Chicken Processing Plant that got raided in Missouri? The owners of the plant had just lost a \$5M lawsuit for sexual assault, abuse, and wage thefts... so, they just called ICE to come in and sweep them all out. 720 people all at once—no hearing, no warrant, OUT! Turns out that more than half of them were in fact US Citizens. But that's okay. They're out of job now. The very next day the company held a Job Fair and replaced them. And as soon as anyone complains about dangerous conditions, sexual harassment, abuse, wage theft--- another call to ICE and the owners don't have to pay a dime in lawsuits or wages owed. You want it, hire a lawyer and go to court to get it. When and if you win, they will appeal it. You get nothing for years.

What's that? You can't afford a lawyer? Even better. Kiss it good-bye. The bullies are in charge. The Nazis are in charge. You have no rights. You don't want your rights anyways. If you did, you wouldn't let them be taken away from others.

But you did. And now, each day a new horror. America will live in shame for generations for allowing this, for becoming this. Look in the mirror. Convince yourself there's nothing you can do about it. Now, go out and vote for the Nazi Party again. You did last time. You're too proud to admit it was a mistake. Your pride is more valuable than... children?

The theme here is that people, just because they are in a position of trust and have a 'good reputation' doesn't necessarily mean they are not engaging in illegal, abusive behaviors towards those who are vulnerable to them. Teachers, doctors, and those very good Christian types, are not automagically the most trustworthy.

If your child says something, listen. Don't shut them down. If a child is acting out, there's a reason for it. Don't buy anyone's disqualifying story about a child saying "They always lie" ... maybe they do, but chances are, they are being discredited in advance so no one will investigate when they disclose crimes. We have to start protecting children in a whole different way. We have to change the system that ignores them and empowers those who abuse them, and those who profit from that abuse.

There will be horror stories coming out of these Concentration Camps. Believe them. All of them.

We got into this evil mess because Children were the easiest to abuse, the least likely to be believed, and no one cared when it was just happening to Indian Children. The experiment has succeeded and they can do it to anyone they want.

They can do it to women, they can do it to anyone they want because we dismiss very quickly, any claim of abuse. We silence those who blow the whistle. We attack those who defend the most vulnerable. This won't get better until we, ALL of us, demand a clean system, an accountable system, run by qualified people, not by political appointees, big campaign donors, etc.

Here we are today. Nothing Just Happens. This was all set in motion a very long time ago. It was easy because we believed the color of our skin made us either superior to those of different races, or that we were entitled to abuse them because they were less than us. By "we" I mean the US Government, both the elected and the permanently burrowed in.

We have more damage to repair, not just the damage currently being done by the man who wants to be called "King" who presently sits in the Oval Office, nor by those in his party who never actively stand against him, despite the very passionate speeches they make before they run out the door. They never vote against anything he wants. They have enabled all of this, protected all of this, and if you can't see the difference between the two parties, it's because you don't want to.

People fought and died for the Right To Vote, and in our country, we can't stir up even 50% of eligible voters to defend our democracy. We allow voter suppression in all its forms in the Southern States and States run by Republican governors and legislators: Machines that flip votes to opposite party, unreadable bar code ballots (anyone here fluent in barcode? Me neither), illegally changing polling places, accidentally losing hundreds of thousands of ballots in close elections, only one voting machine for more than 6000 voters in one district while the White District has 10 machines for every 2000 voters, (and that's why you see elderly Black Voters lined up for hours, waiting for machines, many of which break down, so they have to cast "provisional ballots by the thousands" which are not counted because you have to return within 72 hours and state your ballot is your ballot, again, standing in line for hours (No chairs allowed. People not allowed to give out bottled water on hot days or bring folding chairs for the elderly)... so many ways to cut out votes, so for those of us who can, by virtue of our pale faces, waltz in and vote, really have no excuse for not voting.

People fought and died for the Right To Vote. It should be Mandatory. << Opinion

Do Better.

You know where to find me.
