Motorcade

Since the announcement Saturday that the President is going to visit one of the reservations in North Dakota, speculation has run wild in all directions. But like a laser focus, the Moccasin Telegraph has zeroed in on one particular reservation: Spirit Lake.

I can guarantee you that if it is Spirit Lake, it won't be a photo op kind of visit where the corrupt get to put on a show, dance and drum and dazzle the top dog from DC. This will be a visit of concern. And well it should be. Nowhere is there a clearer view of how broken and corrupt the system is, from every Federal Agency to every member of the Tribal Council, and all their political connections.

A system so broken that child rape is ignored by the North Dakota USAG, Timothy Purdon who dismissed the pleas to investigate the rape of a girl who literally just turned 13 and was raped by a 38 year old man as "There's always two sides to every rape story."

Or where the ongoing rape of a 15 year old girl by a Level 3 Sex Offender is similarly ignored by the BIA and USAG, neither of whom think that the rape of a child should disturb their political ambitions, and so they ignore it.

Spirit Lake, where more than 100 children suddenly vanished from the rolls of Tribal Social Services, their files shredded, and no one knows where they are and no one is looking for them. The files being shredded as the BIA 'Strike Team' was in the building for those months. One employee stating that all they did from 8 AM to 10 PM every night was shred files. Backed up by Kevin Dauphinais who admitted he shredded files while he was Director of Tribal Social Services.

No charges, no investigations. Yes, by all means, take a look at what decades of corruption in every level of government, from Tribal to State to Federal has wrought: Missing children, trafficked children, Kiddie Porn that is global in scale and anyone who dares speak out about it is harassed, threatened and intimidated by the very government officials who are supposed to be investigating, arresting the bad guys, but choose instead to protect the ugliest of all Evils in this world, the deliberate harming of children.

Russ McDonald thinks he can play victim in this. Plea like the poor Indian trying to help his people... asking for more funds for Tribal Social Services. No accounting for the millions of dollars that were stolen from Tribal Social Services by previous directors, even robbing the IIM accounts for the children, and the Social Security accounts for children in Social Services. No investigation. No arrests. "Please Mr. President, we need more money!" Russ McDonald who has known about the corruption in Tribal Social Services for years, will act as if this is all recent and none of it within his power to do anything about.

I hope he wears Buckskins and beadwork. I hope they all do. Maybe he'll paint his face and greet the President with a Grand Entrance or some other Indian Ceremony.

All of that designed to make the corrupt of the tribe appear as innocent as the children they have exploited and ignored all this time. Think you can fool him? We'll see.

I hope Heitkamp shows up for the show. She can bring her token Indian with her. She's pretty! Heitkamp can explain how her \$4M committee has so far concluded that the abuse is rampant and that language classes and more cultural events are the key to solving this mess. I want to be the fly on the wall when that discussion goes down.

I wonder if Marianne McMullen will be there? I'd love to see her explain how she deliberately ignored the Ominibus Bill Obama signed and passed off the responsibility for protecting these children to the State and to the Tribal Council, all of whom have already contributed to the crisis by their own protection of the rapists and the murderers.

I want the President to see first hand how the ICWA treating children as if they are property of their tribes rather than as children who deserve protection from abusers, has created multiple generations of addicts, alcoholics, abusers, and I hope he gets a grip on why being treated like property as a child, with no protection leads also to more violence and more suicides.

The Children must be seen as Human Beings, not property owned by the Tribe and subject to whatever whims and perversions those in power wish to impose upon them. Human Beings unable to defend themselves as they are exploited and used as units to bring in more Federal dollars which never reach that child because every thief in that chain of grants and funding, has taken their cut, from the Federal to the State and the last thieves, the Tribal Council and their Tribal Social Services Directors, take what is left. They refuse to have an accounting of where the funds go because the funds do not go to those children, nor their care, nor their keep nor to their education and medical needs. They go into portfolios, property purchases, gambling and spending sprees.

There is no consequence for hurting a child, so more children are targeted and the harm is more gruesome each time. There are no consequences for stealing funds, even millions of dollars at a time, so there is no deterrent and the ethical need not apply. There is no investigation into any of the crimes so there is no Justice.

Without Justice, there is no civilization, only political warlords vying with or supporting each other's corruption and abuses.

That's why when Betty Jo Krenz speaks out, they tremble. She cannot be bought off. She cannot be scared off, she cannot be run off. The FBI has tried to intimidate her and bullshit her, failing to investigate the attacks upon her. I suspect several of the

FBI agents have participated in those attacks and that would explain why they have never investigated even the most obvious suspects in those attacks.

Every State and Federal Agency has lied to her, ridiculed her, and tried to discourage and intimidate her, but she won't be stopped. All she wants is for the children to be safe and all the corrupt want is for the Evil to continue with no one anywhere standing up to it. It's how they profit. It's how they like it.

I would love to see Obama visit Spirit Lake. I'd love to see that motorcade roll in. I'd like to see how they try to deceive him.

I'd really like to see him bring the full weight of the White House to Spirit Lake and bring real Justice to that one place. Prove to the Nation that in that one small speck on the map, Justice can prevail and children can be made safe, allowed to be safe in homes on or off the rez, where they are loved, protected and nurtured.

If we can't bring Justice to that one speck in the Heart of Turtle Island, then we cannot have it anywhere. Justice is how we know the laws are there to protect us, not to be ignored when it is children who need protection.

We are not a civilized country if we cannot protect our children and bring justice to a place that has never known it, but where the people have hungered for it and died hungry.

Bring Justice first and that one place will begin to heal and that healing will spread like a prairie fire to all reservations, and throughout our nation.

Crimes are being committed. Criminals are being protected and empowered by the corruption in the system. Pursue the criminals. Make them run like rats. Track them down and bring them to Justice and then the people will believe in their community, their Nation, the government and the laws will have meaning for all.

Nothing gets better; nothing gets fixed without Justice First.

The Thunder Beings have returned. They bring first a Motorcade. Rest assured, there is much more coming.

I would caution every fake Medicine Man out there, Arapaho, Dauphinais, Chaske, Crow Dog and all, to not ply their Black Road antics come this summer. This is different. You were warned before and you ignored it, but this is different. The Thunder Beings are here. When they speak, everyone will hear it, everyone will see it and everyone will know it. Your mockery of the ways has offended those you pretend to pray to or speak for. Those who follow these Black Road frauds, be warned, you are not safe.

Those who mock the ways have exploited the hunger in the Oyate for ceremony, balance, and healing. You have sought only power, and now you will learn how weak and pitiful you are.

Rest assured, much more is coming.

Those who have attacked and insulted Betty Jo Krenz, know you have attacked a woman who has sacrificed more than you will ever know, to protect the very children you claim to love, but ignore and abuse. You are pathetic. Betty Jo Krenz is known far and wide for her courage and her determination. Your insults and lies about her are pathetic. You have done nothing to protect the children and you attack the person who does. I pity your miserable lives.

Betty Jo Krenz is a woman of courage, integrity and truth. Your attacks upon her show you to be cowards and weak. You care nothing for the children if you attack the woman who has been fighting every dragon on her path, to bring Justice and protection to the children of Spirit Lake Nation.

You think that by attacking her you are siding with the stronger side. You are mistaken. There is nothing stronger than the Truth. Justice will only come from the Truth. When it comes, the corrupt will fall upon themselves and one another, and they won't save you. You are just another minion to them. You are just another minion to all that is evil in that place where you dwell.

The time to change is long ago. The consequences are nigh. There is no place to run and no place to hide.

What is coming to Spirit Lake is the stuff of legends. The stories that will be told for generations to come of the Time When The Thunder Beings Returned. Will the People come together to speak the Truth? Will the people come together to protect the Children? Or will you cower and run to the protection of the Evil that has been feasting on the bodies of your children and spitting their tiny bones at your feet?

Speaking the Truth, about everything, and not stopping until there is Justice for the murders, the rapes, the child trafficking, the incest rapes, is the only thing that can save Spirit Lake from ceasing to exist.

Only the Truth has that kind of power. Evil thrives on weakness. Truth thrives on courage.

Corruption has been feasting upon Indian Children and Non Indian Children for too long. It's time the ACF was made to answer for their support of the corrupt and their harassment of those with integrity. Billions of tax dollars can be better spent elsewhere, rather than to the protection of the abusers, rapists and the corrupt.

When the Hoop is made whole again, all nations will heal. Healing begins with courage.

Words From an Elder:

"The past is in front of us, I can see everything that has happened to us since we came into Being, including the path laid down for us by our ancestors. It is like sitting

in a moving boat... I can see the boat's wake and whether we are on course. The lessons of our ancestors are going to guide us through whatever is coming, not technology." – Woody Morrison, Haida Elder.

We are so far from what our Ancestors were. Our Ancestors revered courage, integrity and decency. It kept the balance and the people thrived.

Nowadays, the corrupt are seen as 'leaders' and leaders are easily led into corruption. The people have become weak with fear and sickness, grief and abuse. The balance has been upset and the nation is at peril. The corrupt see no need to protect the children, or to allow justice, or to return to balance. If the people cease to exist, they care not for they will have all the wealth they stole to comfort them.

Only the Truth, and the courage to speak the truth will open the path to healing once again. Only then will the ceremonies return to all the people. Only when the children are protected, their homes and communities made safe for them, and the land, the water, the air they breathe are made clean for them again, will our nation return to balance and thrive once again.

This is our work to do, together. There is no other way.

The motorcade is coming because you, so many of you, demanded from the elected and appointed that they pay attention to this one small speck in the heart of our nation, a place that must be healed and the children made safe, or it will be known to all of us that children are not safe anywhere and the lights of our future grow dimmer and darker with every child we fail.

Think of Spirit Lake Nation as the speck in the Heart of the Nation. It's tiny, but if it cannot be healed, the patient either dies or lives a life of deteriorating health. Like the "sinoatrial node" which is just a speck in the Human Heart, but which delivers the electrical charge that makes the heart beat, if it fails, the heart fails.

Spirit Lake is in the Heart of Turtle Island, where the Heart of the USA would be if it had one. It is tiny and it may not seem like much, but if we cannot bring Justice to that one small place, we cannot bring it anywhere. If all the King's Horses and all the King's Men, and their motorcade, cannot bring Justice to that one small speck, it is proof that they cannot bring it to the greater regions.

We cannot ignore that one speck on the map, in the heart of the nation because it is a sign to all of us of what we can or cannot do; what we will or will not tolerate from the elected and the appointed trusted to lead us and enforce our laws. Justice is what protects the Children. Justice is what protects All of us. Justice is what protects our future. Without it, we have nothing as a nation, and we need to face that now.

Don't quit demanding answers from the elected and the appointed. Don't rest until the children are safe and the corrupt are in jail. It's what we all need. It's working. You are making them listen.

You woke up the Thunder Beings. They will mete out their own brand of Justice and we best just get out of the way and let them do what they do.

Our part is here on the ground where we live, work and go to school. This is our part. This is our work to do. Our work to look out for one another, and to protect all children.

Write, email, fax & phone those who are paid with our tax dollars. Make them listen. Make them give answers. It's not over with a motorcade. It's not over until it's over. There is more to come, and much more to be done.

Don't ever quit.

Watch the waters ahead of you and check the wake of the boats that have gone before... the Ancestors have already made a path and we must follow it. Courage.

We must restore the balance and secure the future, or we as a people, our children and grandchildren, perish in fear and hunger for what we failed to do when we had the chance.

Stand up to Evil and Evil will fear even the mention of your name.

You know where to find me.

~Cat
